Preface
WI-IAT Workshop and Demo/Poster 2015

This volume contains the papers selected for presentation at the workshops and demonstration/poster track as part of the 2015 IEEE/WIC/ACM International Conference on Web Intelligence (WI'15) and 2015 IEEE/WIC/ACM International Conference on Intelligent Agent Technology (IAT'15) held from 6 to 9 December 2015 in Singapore.

Both WI'15 and IAT'15 were sponsored by the IEEE Computer Society, Web Intelligence Consortium (WIC), Association for Computing Machinery (ACM), and the Memetic Computing Society. The two collocated conferences were hosted by the Joint NTU-UBC Research Centre of Excellence in Active Living for the Elderly (LILY) at Nanyang Technological University (NTU) and the Living Analytics Research Centre at Singapore Management University (SMU), and supported by the Singapore Exhibition and Convention Bureau.

WI-IAT 2015 boasts an extensive line-up of seven international workshops on a broad range of special topics of interests to the Web Intelligence and Intelligent Agent Technology communities. We thank the Workshop Chairs in reviewing workshop proposals and coordinating the organization of the workshops, the workshop organizers for their great effort in promoting and organizing the workshops, and the workshop program committees for reviewing and selecting the workshop papers for inclusion in the workshop program. We also thank the Demo/Poster Chairs and the demo/poster track program committee for reviewing and selecting the demonstrations and posters for presentation. Finally, we thank all authors who have contributed their work to the WI-IAT 2015 Workshops and Demo/Poster Track.

We hope all WI-IAT'15 participants will find the workshop program and demo/poster session as inspiring and enjoyable as the main conference program.

Thank you for supporting WI-IAT 2015.

Ah-Hwee Tan (Nanyang Technological University, Singapore)
Yuefeng Li (Queensland University of Technology, Australia)

WI-IAT 2015 General Chairs
